Lab: First Test

Goal: get Playwright running with the sample tests.

1) Create a new folder

- Open **VS Code** → **File > Open Folder…** → Find and double click Playwright_Course → Create a new folder called Lab1 → Click "Select Folder".

2) Initialize a new Playwright project

- In VS Code, open the terminal: **Terminal > New Terminal**.

Run:

npm init playwright@latest

The wizard will begin. Choose the following options.

- Do you want to use Typescript or JavaScript?
  - JavaScript
- Where to put your end-to-end tests?
  - tests
- Add a GitHub Actions workflow?
  - false
- Install Playwright browsers (can be done manually via 'npx playwright install')?
  - true

3) Run the sample tests

In the terminal:

npx playwright test

- You should see green checks.

4) Show the HTML report

In the terminal:

npx playwright show-report

NOTE: CTRL + C in the terminal to stop the report server.

4) Run the tests in the ui runner

In the terminal:

npx playwright test --ui

- Run the tests

That's it!
